

Project Name: I-575 at Barrett Parkway and Mall Blvd

Project Description:

This project consists of an additional I-575 south bound off ramp lane to Mall Blvd. that will be barrier separated from traffic on Barrett Pkwy. The new lane will be for commuters wanting to travel to Mall Blvd. only.

[Click Here](#) to see a map of the project

The existing right turn lane will be for those who want to continue westbound on Barrett Pkwy. An additional outbound lane will be added to Mall Blvd. that will separate the double left turn lanes for those who want to go east bound on Barrett Pkwy. from those who want to go straight to the Marshall's shopping center. This will allow the split phase to be removed from the traffic signal, giving more green time to the two major movements.

Specific Project Status:

Project is in the engineering and design phase. Funding for construction and R/W acquisition has not been identified.

Attached concept shows the existing situation (purple lines) and the proposed changes (the green lines). The project involves the interstate; therefore GDOT and FHWA oversight will be required.

Task Amount/Funding Source

Concept /Design - \$205,000 Town Center Area CID

Right-of-Way Acquisition

Construction - \$\$1,350,000 TBD

Project Team:

Consultant: **ARCADIS**

Contractor: TBD
