The TCACID has been in existence for more than 12 years, which makes it one of the oldest CIDs in metro Atlanta. Our primary focus is to understand and improve conditions in the Town Center area with a variety of activities related to:

- **Quality of life**
- **Traffic safety and operations**
- **Planning**
- **Road and project construction**

New landscaping, trails, signage, sidewalk and major road improvements are under way or pending. With many projects under way, TCACID is proud of past accomplishments and exceedingly optimistic about the present and future.
